CHEMICAL ADHESIVE FOR THREAD LOCKING AND SEALING

PRECOTE® 30

Medium Strength Thread Locker

PRECOTE® 30 varnish-like, solvent free coating systems based on microencapsulated acrylates for sealing and locking of threaded parts. The dried film is tack-free, non sticky and can be used in all kind of assembly procedures, particularly for series production. Its characteristics as a locking and sealing element become effective only when the capsules are ruptured by shear and pressure stress and the adhesive is allowed to cure.

Technical Data — PRECOTE® 30

- Color yellow (special colors available upon request)
- Thread Friction Value > 0.10 0.15
- Curing Time (RT) 8 hours (an additive of "-3" will reduce to 2 hours)
- Temperature Range: 60°C (-76°F) to +150°C (+302°F)
- Shelf-Life 4 years at room temperature
- For small thread crest (less than 1 mm an additive of "-8" can be added to increase performance)

Typical Performance Results (M10 plain finish)

- Prevailing-On Torque 0.5 0.9 Nm
- Breakaway Torque (without preload BAT) min. 10.0 – 15.0 Nm
- Prevailing-Off Torque min.
 2.0 4.0 Nm

Advantages

- Environmental resistance to heat, automotive fluids, thermal and mechanical shock and vibrations
- Bonds to a broad range of fastener finishes
- Penetrates oil coatings
- Complies with or exceeds major OEM specifications
- Seals against pressures up to 250 bar (3600psi)
- Parts are ready for assembly (continued)

PRECOTE® 30 is a trademark of Omnitechnik, Mikroverkapselungs GmbH

INWVATION"

Every fastening task comes with its own set of challenges – locking, sealing, high temperatures, thread contamination or any combination of these. When these challenges slow product development of the design process, Nylok engineers provide $INNYVATION^{TM}$ services – the knowledge and resources to uncover solutions that balance cost, manufacturability and environmental concerns.

As a supply chain partner, Nylok products serve a global network of customers in a diverse range of industries – automotive, aerospace/defense, heavy machinery/truck, electronics, weaponry and specialty applications. Nylok solves fastener problems from NASA applications to the small home appliance industry, processing more than 10 billion parts per year – the global leader in fastener processing.

PRECOTE[®] 30 Medium Strength Thread Locker

Advantages (continued)

- · Precise thread coverage in every part
- Can be applied on external and internal threaded fasteners
- · Is not affected by high humidity conditions
- Dry-to-touch and tack free with good adherence

COMPANY NAME	SPECIFICATIONS
Ford	WX201
Military	MIL - DTL - 18240F
